

Cassini-Huygens Mission to Saturn

The Cassini Mural

Art and science are beautifully blended in this mural painted by artists from East Los Angeles. The mythological Roman god Saturn is symbolized as Time, shown with wings and a scythe, drawing back a veil to allow the Cassini spacecraft to reveal the mysteries of the vast Saturnian realm. The flags of the participating countries are also shown. (Courtesy NASA/JPL)

Dear Jane,

Docket # 00 P-1211/KP 15 082

SEP -8 110:02

to help people have a
choice, as part of the government
this is the kind of thing that
needs your full support.

GE foods could be very dangerous!
It requires testing!
